enquiry:

What is so special on free to air TV optus D1?
Optus B1 use to have lot of oversies channel that entertain many defrant people who stay in new zealand. New zealand is multi cultural country. many maouri, pakiha, asians, indian, islanders, muslims live in here.

opetus D1 only serving national chennels that alrady almost every one received thru transmitters and arials.

we need 1 each channels from each defrant country. NZ Goverment shuld wel come asian and all oversies TV channel who intrested to broadcast there programmes in NZ by optus D1. Also its all shuld be free to view for all NZ people. who ever just intrested to Do business and try to suck NZ dollers to there country shuld be booted and NZ brodcasting team shuld not allow them to brodcast there chennels. They only get there benifits from commarcials and advertisement. Shuld not sold to SKY or other compeny that charge huge ammount of monthly fee. This is for middle class people who live in NZ cant afford to pay monthly subscription to Sky or other compeny.

What NZ goverment doing to serve free to air TV Improve and get better and become populer in NZ and give best benifit for kiwi people?

thanks
P
