**Subject:** programming

---

**Sport:**

**Why are we – the tax payer – paying so heavily for sport when it is mostly on Sky? The amount of sport on the current channels is hardly worth looking at and what we have is mainly Rugby and Motor racing. Please, more sport and a bit more variety.**

\$90,000 paid to TV NZ is a lot for what we get

**Advertising**

There is too much advertising on Television which drives people away from the current TV channels to non commercial entertainment sources. Ad breaks in programmes need to be limited. Peak times there appears to be more ads than programs.

Thank you
